These tools are made with different size openings that will grab and hold the clip and different lengths. Made of the highest quality, heat-treated stainless steel.

CTD607

Recessed Clip Removal Tool • \$13

Easily fits down into recessed areas and then can be slid under the head of the cowling clip.

CCR819

Expansion Clip Removal Tool • \$38

Features a small sharp screw that bites into the plastic head of the clip and pulls the center pin out. The clip will then collapse and can be easily removed.

TPE657

Clip Removal Tool • \$13

Our Clip Removal Tool has a V-groove with sharpened tips so it will slip under the head of the clip. Works on many cowlings and drip gaskets.

MR747

Molding Clip Release Tool • \$10

This tool is designed to release the clip from the body of the vehicle in order to remove the molding. Made of high-carbon steel. Works well with older model vehicles.

IW1214

Double-Direction Clip Release Tool • \$8

An industry standard for over 50 years, this tool was designed to release the clip from the body of the vehicle in order to remove the molding. Made of hardened steel.

HRT367

Hose Removal Pliers • \$20

Designed to save the hose that runs to the windshield washer nozzle by pushing it off quickly and without damage.

SNS675

Slip-N-Slide™ • \$33

Invented By: Duane Roser
 Tab retractor tool for door glass removal. Made of heavy-duty, flexible plastic that can be bowed in either direction to accommodate all types of removals. *Some vehicles may require the use of 2 tools at once for release of multiple fixtures simultaneously.

For use on select 2009 and up: Dodge, GM, Chrysler, Ford and Jeep

DCR244

Door Panel Clip Removal Tool • \$12

Features a slim design to easily slide under door panel clips on older style vehicles.

JCS452

Compact C-Clip Removal Tool • \$9

This compact tool has a flat design that will let you use it from all sides. Works on most common C-clips on manual window regulator handles.

CT749

C-Clip Removal Tool • \$14

This tool works on most common C-clips on manual window regulator handles. Features flared sides to prevent the metal from damaging the door panel and a unique back-end which firmly holds the clip. Made in the USA.

TRL350

Door Panel Clip Removal Tool • \$13

Features tapered, thin edges to easily slide between the door and panel to remove clips without damage. Designed with two grooves to access the clips from different angles.

DEC381

Double-End Molding Release Tool • \$8

This tool has a small rubber spacer through each end to hold the tool up off of the glass about 1/32". This prevents the tool from scratching the glass and holds the end above the glass to lower the chance that the tip will break the glass. Made of steel.

RFM683

Christmas Tree Molding Remover • \$17

This tool is thin enough to fit under moldings and wide enough as to not tear them. The long curve allows for leverage to pry against the glass. The wide shank is coated with soft plastic so it absorbs shock and is less likely to break the glass. Made in the USA.

BMR1488

Belt Molding Remover \$24

Designed to both remove and save belt moldings that were installed with clips that are slid down from the top and clamp into the metal.

RHR584

Rivet Head Removal Drill Bit • \$89

Removes the rivet head and leaves the steel stem in place. This allows you to push the remaining aluminum shank and the rivet stem out to release the rivet. Made of hardened steel in the USA.

DPO585

Rivet Stem Remover • \$38

Invented by: David LaPoint
This tool has a contoured end so it will sit over the rivet and align perfectly with the rivet stem. With several light taps of a hammer the rivet stem is driven out.

AEP1132

EasyPunch™ • \$32

Designed to remove rivet stems with a built-in spring loaded punch which is delivered with a simple push of the handle. Eliminates the need for hammering. Not for use on steel rivets.

SP1416

Express™ Air • \$502

Express™ Air is a compact, lightweight, air-powered tool designed to cut the urethane that holds glass in vehicles. The blade reciprocates inside a metal sheath which protects the dash, garnish moldings and headliner.

HydroBlade™

\$52

- EHB145 • 1-1/2" W x 10" L
- EHL146 • 1-1/2" W x 12" L
- EHB186 • 3" W x 10" L
- EHL187 • 3" W x 12" L
- EHE160 • 3" W x 14" L

Express™ HydroBlades™ are designed with dimples stamped on the side of the blade that rides against the urethane for carrying cutting lubricant into the urethane.

Bullet™ Blade

\$52

- REL261 • 1-1/2" W x 12" L
- REB262 • 3" W x 10" L
- REL263 • 3" W x 12" L
- REE264 • 3" W x 14" L

Bullet™ Blades are elongated, rounded blades designed to cut from all angles. Their unique shape and sharpening make side-to-side cutting easier and make slicing through wide beads of urethane a breeze.

Express™ Blade

\$52

- BFE1401 • 1-1/2" W x 10" L
- LBE1403 • 1-1/2" W x 12" L
- BFE1400 • 3" W x 10" L
- LBE1402 • 3" W x 12" L
- RLE1404 • 3" W x 14" L

The Equalizer® Express™ Blades are designed to cut through wide beads of urethane using a flexible material that puts less stress on the glass.

Piranha™ Blade

\$59

- PHB169 • 3" W x 10" L
- PHB174 • 3" W x 12" L
- PHB175 • 3" W x 14" L

The Equalizer® Piranha™ blade uses the same cutting technology as the original HydroBlade™ but also incorporates serration on a portion of each side of the blade, making cutting from left to right and right to left much easier.

EHF173

Express™ Specialty Blade
\$52

Designed to cut around very radical curves in the glass and in vehicles that have corners with a sharper-than-90° angle.

ES1406

Express™ Sheath • \$37

The sheath encloses the blade shaft on Equalizer® power tools to provide protection and allows them to use a flexible blade by giving it added support.

Quarter and Corner Glass Blade

\$52

HQS176 • Narrow Passenger • 1-3/8" W x 12" L

HQS177 • Narrow Driver • 1-3/8" W x 12" L

HQW178 • Wide Passenger • 2" W x 12" L

HQW179 • Wide Driver • 2" W x 12" L

These narrow blades are designed to cut quarter glasses that come to a sharp point in the back. They are also very useful on those vehicles that have corners with sharp angles. The blades are flexible to allow the tool to be held outside the quarter glass opening while cutting inside. The wide blades are designed to accommodate the quarter glasses and corners that are not as pointed. Each blade is designed for a specific side of the vehicle.

Raven™ • \$162

Designed to cut along flush-mounted or encapsulated urethane set auto glass. Easily converts to an air-powered cold knife.

Talon™ Oscillating Blades

These high-quality blades are made of flexible stainless steel, so they will flex before they break. This ability acts as a warning. When you see the blade start to flex, you know it is time to back-off and decrease the amount of pressure. The blades are flat on one side so they will ride against the glass and cut the urethane at the point of least resistance. These blades will fit the Falcon™, Raven™, and TimeSaver™ tools as well as most oscillating tools on the market. These blades will not fit the Ninja™ line of tools.

Extractor™ Shafts

\$167

EXT-SHL • 13" for Pneumatic Series

EXT-SHS • 8" for Pneumatic Series

EXT-SHD7-SWIVEL • 7" for Cordless and Electric Series

Shafts for The "Original" Extractor™ utilizing a Chicago Pneumatic air hammer with locking collar come in two sizes. The Swivel Shaft is a 7" extended shaft, which gives longer reach in tight cutout areas. It swivels 90 degrees left & right, allowing the technician to swivel his battery or handle out of the way of obstacles when cutting out glass. The Swivel Shaft fits all cordless and electric Extractor™ models except for the Extractor™ Mini.

EXT-HAMMERHEAD

HammerHead • \$178

The HammerHead is an economical tool for separating the lower corners of windshields that cannot be cut out with a cold knife! It utilizes standard Extractor™ blades and comes complete with a 6 ¾" cut out blade. The 21" overall dimension fits most standard tool boxes.

Extractor™ Blades

EXT-DELTA-XL • 7¾" Blade • \$42

EXT-DELTA-XXL • 9" Blade • \$49

EXT-DELTA-XXXL • 10" Blade • \$52

Extractor™ blades are made from stainless steel, and have been cut and tapered to custom specifications. The blades offer excellent flexibility and strength. If used correctly, they should last 200 cut-outs or more. Many users report 300 - 400 cut-outs. For best results it is necessary to keep the blade sharp and use adequate water for lubrication. The blades are very easy to sharpen. Simply run across a wet belt sander, grinder or file, putting a 45 degree edge on one side of the blade, in the same manner as you would sharpen a chisel.

Milwaukee® Urethane Guns deliver urethane with a powerful pushing force of 950 pounds and dispense the highest viscosity materials with ease. The combination of a variable speed dial and trigger switch along with the Constant Flow Technology, provides a steady material flow rate and even urethane beads. The auto-reverse feature prevents unwanted dispensing of materials. An interchangeable front-end allows this unit to be used with 10 oz. (300ml), 20 oz. (600ml) or quart size (32 oz./946 ml) sausage packs (conversion kits sold separately). For the 465ml urethane packs, you can use the 600ml barrel by pushing the plunger up to accommodate the pack.

Gold Glass Group Moldings

Designed to not shrink or discolor over time, never crimp around corners, always lay flush against the vehicle, never need a heat gun to install, and fit both thick windshields and thin tempered parts. A layer of butyl is embedded into the channel of each molding and adheres to the vehicle while the urethane cures. This adhesive ensures a perfect bond and the cured urethane holds it permanently in place.

PRT305

Pin Removal Pliers \$78

With five adjustable settings this tool will remove and replace any swing or pop-out latch friction pins.

ERT470

Pop Rivet Setting Tool
\$90

This pop rivet setting tool comes with the two most commonly used sizing nosepieces and also has another three sizes for anything else you might encounter. The tip is 5-1/2" long to reach deep inside any door. It features a small plastic bottle between the handles that catches the shank of the pop rivet. Includes an extra pair of jaws (that pull the rivet) and a wrench to change the sizing nosepieces.

DO1097

Twistable Head Pop Rivet Tool • \$58

Designed with a unique head that can be rotated all the way around to point in any direction. Comes with 4 different sizing nosepieces for use with 3/32", 1/8", 5/32", 3/16" rivets and a wrench to change them. Steel construction with a vinyl grip.

Installation Sticks

- IS742 • Installation Stick • \$2
- ISC741 • Chisel-End Installation Stick • \$4

The most used tool by Auto Glass Technicians. Can be used to manipulate the urethane, remove door panels, install rubber gaskets, remove moldings, lift the cowlings, and tuck in headliners. Use the rounded tip for all the things you now use a regular installation stick for, and then turn it around and use the chisel-end to scrape excess urethane buildup out of corners where a pinchweld scraper or blade will damage the paint. They are great for removing excess wet urethane. Made in the USA.

Installation Stick Handle

- ISH691 • Handle Only • \$ 5
- IWH692 • Handle With Stick • \$5

A tool handle that is hollowed out in such a way that it will allow an installation stick to be slipped inside and fastened with a set screw. Replacement screws available.

LSW583

- Retaining Nut Tool • \$9

Designed for Ford, GM and Chrysler vehicles to remove or install window retaining nuts. The slide-through handle allows you to work in confined spaces or to remove a glass that is not broken. Made of steel and plated to prevent rusting.

ASW576

- Adjustable Spanner Wrench \$64

The unique design allows it to fit a variety of different size retaining nuts. Made of hardened steel.

Locking Strip Tool

\$20

LS758 • Standard

RU1391 • Curved Shaft

The unique design of this tool allows the tip to swivel 90° in either direction to work where others will not. The four different eyelet types will fit most rubber locking strips on the market.

LGM207

Locking Strip Tool • \$7

The narrow jaws open the rubber gasket and a small piece of metal rolled under the center part forces the locking strip into place. Works on Ford, Chevy and Mack trucks, as well as BMW and recreational vehicles. This tool is made of chrome-plated, hardened steel.

PA1348

Locking Strip Tool • \$26

Features 6 different size tips that can be changed in seconds by loosening the hex screw. The tips range in size from 3/8" all the way up to 3/4". The 3/4" tip has a 90° angle to give the proper angle on wide, flat-type locking strips.

BDA251

Footloose™ • \$96

With Footloose™, you can push out on the glass with one hand while you release the rubber gasket with the other.

RGC751

**Rubber Gasket Cleaner
\$13**

Designed with a chisel-end that is sharpened on the end and sides so it will clean glass and old sealant out of the gasket with one, easy pulling motion while keeping your hands clear of the glass.

RT752

Rope Insert Tool • \$18

This tool is designed to ease the rope under the lip and set it in the groove of the gasket. Has a 20 foot length of rope that will reach around the largest rubber gasket. Made in the USA.

PT697

Pigtail Rubber Gasket Tool
\$17

Designed to fold the self-locking rubber into the locking part of the gasket.

MQ1292

Self-Locking Rubber Gasket Tool • \$13

The curved polished steel tip of this tool will slide the locking rubber in easily.

MR1293

Ball End Self-Locking Rubber Gasket Tool • \$13

The steel ball makes it very difficult for the tool to come out of the rubber gasket lessening the chance you will scratch the paint of the vehicle you are working on.

RGL34

Self-Locking Rubber Gasket Tool • \$38

End Replacements:

RFE39 • Pigtail • \$12
RFS40 • Straight • \$11

The pigtail end of the tool is most useful when the self-locking rubber is not very old and still a little stubborn. The straight end works great when the self-locking part goes into place easily. Made of cast aluminum with steel ends.

Double Bend Rubber Hook Tool

RT753 • Short • \$13

RTL895 • Long • \$17

Designed for pulling the rubber gasket over the pinchweld on rubber set jobs. Has a bent-then-curved end. RT753 shank measures 3-1/4". RTL895 shank measures 7-1/2". Made in the USA.

MT1295

Narrow Nose Hook Tool • \$13

This tool is an 1/8" thick at the bend and tapers down to 1/16" at the tip. Made of hardened steel and chrome-plated.

HTS923

Hook & Pick Set • Set of 4 • \$13

Our Hook & Pick Set helps you pry up the smallest items. The straight pick also works great when you are trying to align small holes. Tools measure 6-1/2" Long.

LG1257

Pattern Making Pencil • \$13

Use our Pattern Making Pencil to make a pattern when a glass is missing in a piece of heavy equipment. Most rubber gaskets have a 5/16" space between the rubber and the pinchweld. This pencil has a plastic ring that spaces the pencil exactly 5/16" inside the pinchweld and makes a perfect pattern. Made of aluminum with a collet holder that keeps the pencil in place.

LY1275

Radius Patterns • Set of 9 • \$50

Use these patterns to determine the radius, then measure the size of the opening. Radius Patterns have 9 circles starting at 1" and increasing in 1/4" increments up to 3".

VTR1448 • Thin Viscosity
VMR1450 • Medium Viscosity

\$41
1 Oz. Bottle
VTL1449 • Thin Viscosity
VML1451 • Medium Viscosity

Produces unparalleled clarity and strength. Thin resin (10 cps) is a general use resin for repairs in all climates and wicks extremely fast. Medium resin (40 cps) is an ideal choice for hot climates.

Pit Filler
VPF1452 • .5 Oz. • \$24
VPL1453 • 1 Oz. • \$41

This is an extremely hard curing resin, creating a powerful bond to the glass surface. It is also easy to scrape off and then polish to perfection with our non-abrasive pit polish.

AVL209
Cup Lube • 1 Oz. • \$13

To maintain the vacuum cups and keep them soft and pliable. Can also be used on cups for easy movement of the bridge assembly or repair mirrors without having to remove and replace.

VPO1455
Pit Polish • 1 Oz. • \$9

A non-abrasive pit polish that gives the repair a smooth finish.

VCB1454
Cleaning Solution
1 Oz. • \$8

Formulated especially to clean the Equalizer® Rock Star® Injector. *Not to be used on vacuum cups.

TRO653
Tinted Repair Resin
1 Oz. • \$41

This is a thin viscosity formula which produces extremely clear and strong repairs in any climate or repair situation. The added tint helps “disguise” its presence in the crack and adds to visual clarity. It can also be used as a general repair resin.

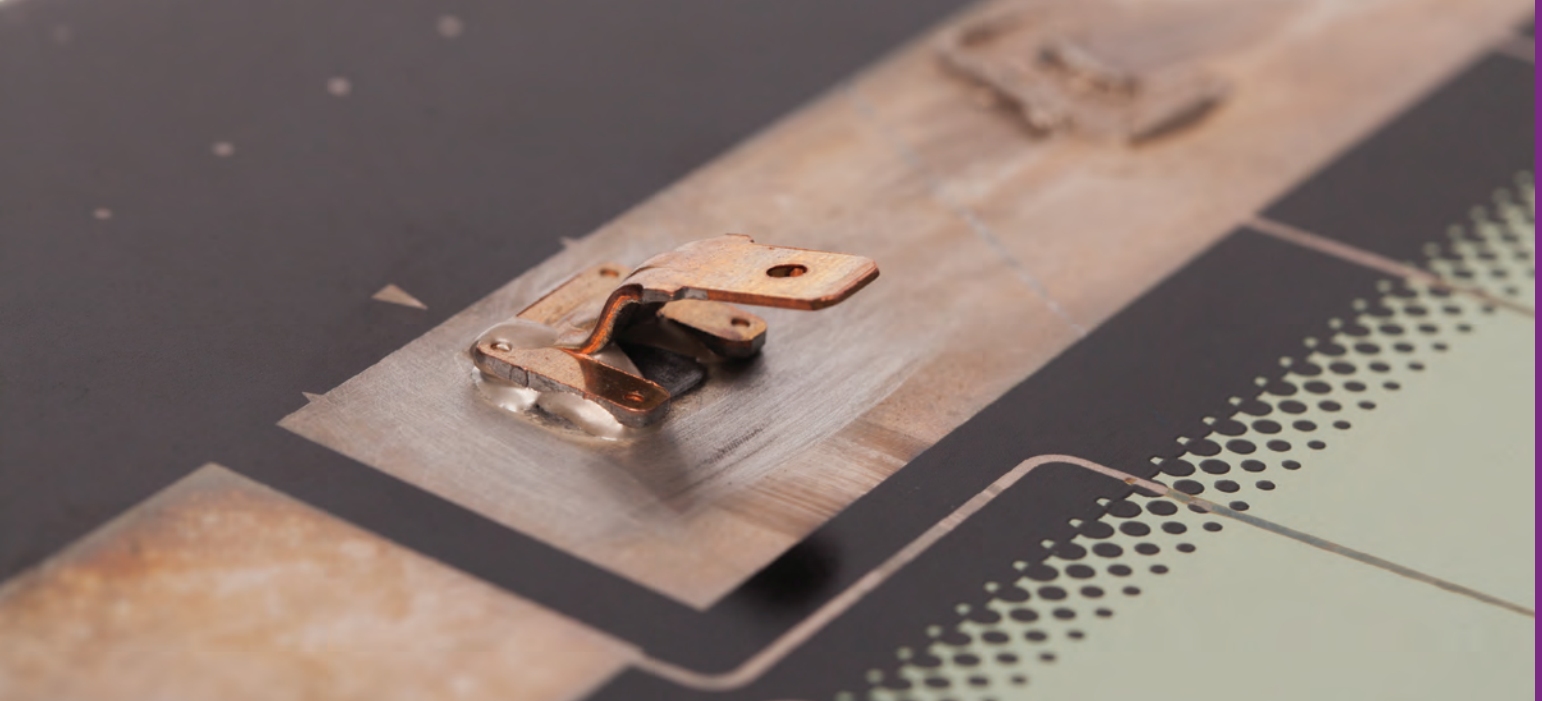

VUS1501
UV Shield • \$24

Square shield to protect the repair area from UV rays. Measures 15-1/2" with suction cups on each corner and an opening for the bridge and injector assembly.

VFL1463

 FDI898 • 9/16" (15 mm) • \$16

The foam strip on the inside of the vehicle between the glass and dashboard is often damaged upon windshield removal. This compressed foam can be used to replace the damaged strips helping the acoustics by reducing noise and creates a factory finish. When released, it expands during 24 hours to its maximum height. Each roll is 5' long (1.5 M).

Foam Installation Tape

OSA6492 • 1/8" x 3/16" x 18' • Box of 12 • \$53

With this kit you can open most vehicles on the market. Kit contains: a slide lock button tool, dual release tool, narrow release bar, wide release bar, JapanEASY tool, Wonder Tool, knob grabber, gas cap key, nylon wedge, and an instruction manual. Made in the USA.

NMT448

Mechanical Pick-Up • \$20

Small plastic pieces and many of the metals used in vehicles today are non-ferrous, and a magnet does not attract them. Our Mechanical Pick-Up is designed with steel fingers that are spring-loaded and will grip an item up to 1" in diameter. The closed diameter of the "jaws" is less than 3/8". The Mechanical Pick-Up is 24" long, has a flexible shaft and will reach into the deepest recessed areas to retrieve an item. Also features an LED light that runs on 3-LR41 batteries (included).

MT690

Telescopic Magnet • \$12

The Telescopic Magnet extends to 24" long and collapses to 4-3/4" for easy storage. This powerful magnet can lift up to 2 pounds. Made in the USA.

SRH707

Soft Rubber Hammer • \$53

Our hammer is made of Sorbothane®, which is a softer material less likely to damage a vehicle.

HP2331

Heavy-Duty 3-Drawer Toolbox • \$158

Features a large storage area on top and three steel drawers with full-extension slides that lock when the lid is closed. Measures 23" W x 13-1/2" D and 10-1/2" H.

088020

Milwaukee 18-Volt Vacuum • \$260
49901900 • Replacement Filter • \$52

This 2-Gallon vacuum features a stackable toolbox design, a long continuous run time, high air power and powerful suction. Includes a reusable filter, hose, crevice tool, and a wide nozzle. Uses all Milwaukee 18-Volt slide-on batteries, LI-ION or NiCd. Battery and charger not included.

PLS429

Aqualizer™ • \$17

This is a 1-1/2 quart pump style sprayer that has a “lock” position on the handle for when you need to really soak an area.

POLY2

SuperSoaker™ • \$32

This 1 liter sprayer produces maximum pressure and utilizes a thick rubber O-ring for an effective seal. Has a “lock” position and a pivoting nozzle with spray guard.

SBS732

Spray Bottle • \$7

8 oz. spray bottles that can be adjusted to fine, medium or hard mist. The sprayer is made of polypropylene and the bottle is made of high-density polyethylene.

CO1396

TERMS & CONDITIONS

Authorized Distributors:

Equalizer® boasts a network of authorized distributors worldwide. Our authorized distributors maintain online stores, showcase Equalizer Store displays, host promotional events, and stock our products. To locate a distributor near your location, please visit equalizer.com.

Trademark and Copyright:

Equalizer® owns the trademarks The Equalizer®, Excalibur®, and Rock Star®. Unauthorized reproduction of these trademark names is strictly prohibited without the exclusive written consent of Equalizer®. Additionally, this catalog is copyrighted, and any reproduction of its content, whether in part or whole, is prohibited without our express written consent.

Image Usage and Color Variation:

Each photograph in this catalog is digitally watermarked, and any unauthorized reproduction is prohibited without our exclusive written consent. It is also important to note that using an Equalizer® photograph to promote a product not purchased from Equalizer® constitutes a violation of our copyrights. Furthermore, please be aware that actual product colors and styles may vary from the depicted images due to supplier changes.

Products and Pricing:

All prices are listed at MSRP and are subject to change without prior notice. Accessory items listed in kits may be subject to change without prior notice.

Order Shipping and Damage Reporting:

At Equalizer®, we consider cost and time requirements when shipping your orders. We typically use the least expensive carrier for shipment. All freight charges are prepaid and added to your invoice, unless you opt for shipping your order freight collect or provide a billing account number for your chosen carrier. In the event of damaged or missing items, please report the issue within 24 hours of delivery. We recommend checking the contents against the packing slip immediately upon receipt. Please report any damages with the shipping carrier immediately. Equalizer® reserves the right to refuse claims if excessive time has passed since delivery of the shipment.

Drop Ship Policy:

Equalizer® offers drop shipping services for our customers. However, please be aware that the billing customer is responsible for ensuring the accuracy of shipping addresses. Equalizer® cannot be held responsible for fraudulent drop ship orders.

Tax Exemption for USA Customers:

Customers in the USA who are tax-exempt must submit their state tax-exempt certificates for all relevant states. Otherwise, all orders will be subject to state tax based on the shipping address.

Warranty Information:

Equalizer® Auto Glass Tools are warranted against factory defects. The warranty does not cover abuse, misuse, or normal wear and tear. Additionally, it does not apply to accessories or damage caused by unauthorized repair attempts. The warranty period varies by product. We will repair or replace any defective part at our discretion.

Before sending us a tool for repair or evaluation, please include the RMA# provided by the Equalizer® Customer Service Department. Send the entire tool, which may include the battery, blades, sheath and other accessories. Equalizer® reserves the right to send back your tool if you do not have a RMA# associated with your repair. You can also find an authorized repair center near you by contacting our customer service department.

Equalizer® reserves the right to refuse repairs at our expense for tools that have not been properly maintained as specified in the User's Guide. For any tool-related questions, you can call us at 512-388-7715 or email sales@equalizer.com.

Manufacturing Warranty Details:

1 year from purchase: Equalizer® Power/Wire Tools
3 years from purchase: Airforce™ Technology Products (Raptor™, JetPacks™, PowerPumps™)
90 days from purchase: Urethane Heaters
30 days from purchase: all other Equalizer Products

Loaner Tool Service:

Loaner tools are available to provide convenience to Equalizer® customers who need to send their tools for repair. To request a loaner tool or for any questions, please contact us at 512-388-7715 or email sales@equalizer.com. Loaner tools are subject to availability.

Order Processing and Payment Options:

Orders are processed from Monday to Friday, between 8:00 am and 5:00 pm CST. Equalizer® offers several payment options. However, all new accounts are initially set up with credit card or prepayment terms. If you wish to apply for account terms, please contact sales@equalizer.com or your Equalizer® representative.

Return and Refund Policy:

We hope you are satisfied with your purchase from Equalizer®. If, for any reason, you or your customer are not completely satisfied, please inform us.

Refund Policy:

If you receive an item you are dissatisfied with, you may return it within 30 days. You must obtain a RMA# provided by the Equalizer® Customer Service Department for the items you want to return. The products must be in like-new condition to receive a refund. All like-new returned items are subject to a restocking fee based on the following schedule:

1-30 days from the date of purchase: 15% • 31-89 days from the date of purchase: 25% • 90 or more days from the date of purchase: 50%

Products returned within 30 days of purchase that are not in like-new condition are subject to a 25% restocking fee, and a 50% restocking fee if returned 31 or more days after the purchase date. Your refund will be processed upon receipt of the returned item, and it will be made by crediting the original method of payment. Refunds or credit for discontinued items will be subject to review by Equalizer®, which reserves the right to refuse credit for any discontinued items. After the return period, products will be covered by the manufacturer's warranty, as applicable. Please reference the packing slip or invoice number for your return.
